Re: Review of multi-tool

---

The purpose of this memo is to inform you that I have completed my assigned task of creating a multi-tool for social media called Social Pocket Purse.

After my completion I did more research on the consumer for Social Pocket Purse, I observe that it will be used by the public with emphasis on the youth. They will be our aim because mostly today social media is dominated by the youth. This product will bring profit to the company because social media is one of the most dominant activities today on earth. I have watched many videos and read blog posts such as WASP BARCODE TECHNOLOGY where people wish they had a barcode scanner they can show to others to access their social profile and with our tool people will not have to use call card. They can easily show their Social Pocket Purse to allow others to access all of their social media profile. In addition our tool will have a phone screen wipe and also a phone pen which makes it ok.

The Social Pocket Purse has been a unique project and I enjoyed every part of it. With your feedback and technological expertise, I can completed the project. I would really appreciate it if I can get feedback from you on my project as soon as possible

### PRODUCT FEATURES:

- Four corners at front for barcode
- Two rectangular shapes at the back for barcode
- Phone wipe or cleaner at the bottom
- Phone pen at the top

### INSTRUCTIONS

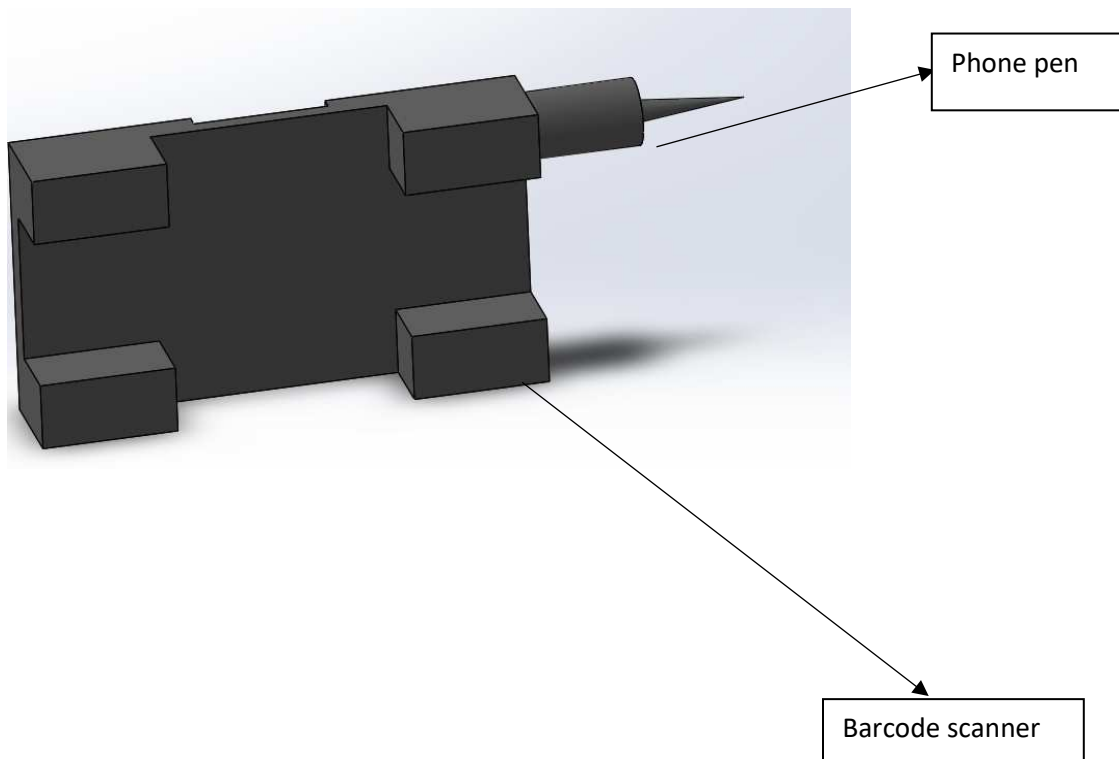

- Social Pocket Purse should be used by age 13-adult.
- Firstly, to use SPP you will first have to generate you barcode from your social media account.
- To generate you barcode you can watch our tutorial video at [www.socialpocketpurse/video.com](http://www.socialpocketpurse/video.com), or you can watch “How to generate barcode on social” on YouTube.

- Next, after generating your code you can send it to our website [www.socialpocketpurse.com](http://www.socialpocketpurse.com) so we can size it to fit on your multitool. You can also size it yourself (the size should be 400x400).
- Next, we already provide you a sticker to attach your barcode on your product. You can use your barcode after printing it out and attaching it on your multi-tool.
- Then you can show it to someone to scan it whenever they ask you for your social media information.
- Use the pen on the screen if your hand is sweating for your screen
- Use the phone wipe or phone cleaner if your screen is dirty.

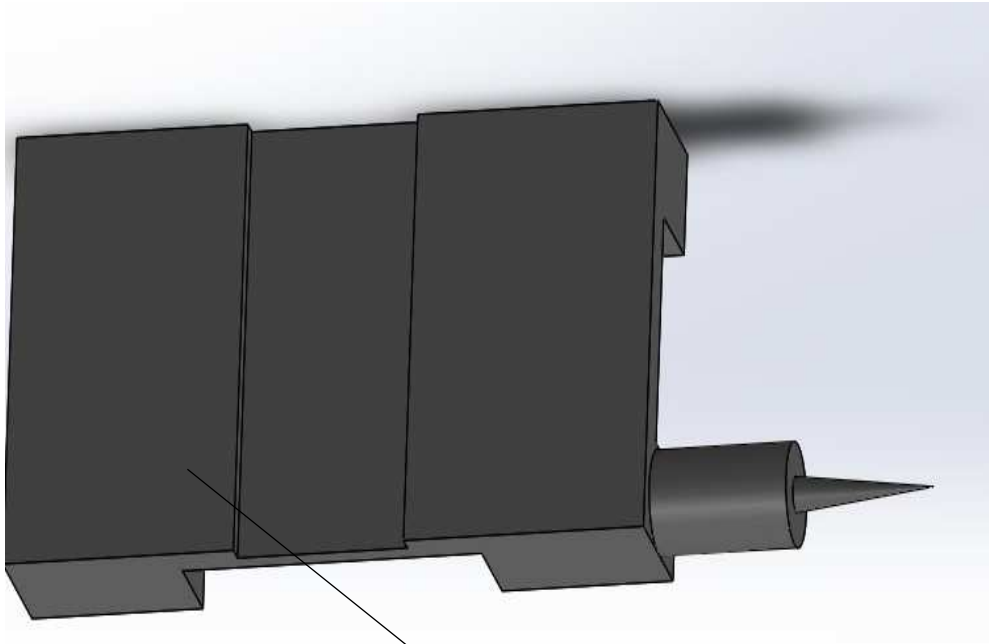

**WARNING!!**

**PLEASE BE CAREFUL WITH THE SHARP END USE AS THE PHONE PEN.**
